CLERK OF SUPREME COURT  
OF WISCONSIN

I'm writing to comment on the petition that has been brought by 54 judges to ensure that cases brought before the WI Supreme Court are decided fairly with no appearance of outside influence or monetary influence that would give the appeal even of corruption

The people of every state deserve members of a Supreme Court who do not display a prejudged preference for one side of a case based upon past or hoped-for future donations made to their election campaign.

Our state has become a laughing stock for its basic disregard for the refusal of specific members to recuse themselves from cases where defendants were major contributors to their campaigns. Even someone unschooled in law can see that this is a direct conflict of interest and taints the ultimate decision made in specific cases.

It's time to follow the law.

Thank you.
