CLERK OF SUPREME COURT
OF WISCONSIN

Subject: Justice?

When 54 retired Wisconsin judges file a petition with the state Supreme Court asking the court to write new rules for when judges should excuse themselves from a case, you know that our justice system has gone to \$\$\$\$\$\$. I am sick to death of GREED in every aspect of governance. The present state of Wisconsin is not the one that I knew and loved as a younger man.

Now justice is for sale to the highest bidder. America has lost its way and smarmy Governor Walker has turned our state into a microcosm of what this country has become. But take a look at how Mr. Trump is faring in the polls. We will be coming for Walker and his minions as well.

We are angry and we will show you just how angry we are in 2018, if the country lasts that long!
